How To Set Up VPN AKSN (Forticlient-ZTNA) On Android

Recommendation Devices

- All Android brands except Huawei.

Android Version

1. Android Version 15
2. Android Version 14

Note: *Ensure your Android version is updated to the latest version before proceeding.*

Step 1: Downloading FortiClient

1. **Check Your Email:**

   o Look for an invitation email from mailadmin@sabah.gov.my in your inbox.
   Invitation to join EMS (ZTNA-SabahGov) (ZTNA-SabahGov - ztna.sabah.gov.my)

   From: mailadmin@sabah.gov.my

   o The email contains a link to download the FortiClient installer for Android.

   Windows 64-bit

   Mac OS   Linux

   Download on the App Store   GET iT ON Google Play

   Note: *Apple iOS is currently not supported.*

2. **Download and Install:**

   o Click the Google Play icon provided in the email. The link will redirect you to the Google Play Store.

   o Install the app and open it after the installation is complete.

Step 2: Connecting to FortiClient-ZTNA

1. **Copy the Invitation Code:**

   o Open the invitation email and copy the invitation code. This code is required to connect to ztna.sabah.gov.my.

Register to EMS Manually

Alternatively, you can follow the steps below to register your FortiClient using this invitation code:

_VjE6enRuYS5zYWJhaC5nb3YubXk6ODAxMzpEZWZhdWx0OkEzRjg2Mkl1LTU1RkYtNDkxQi1CM0l1LTg1MzM0N0M2RkQwOA==

- o **Ensure** you copy the entire invitation code, including the _ at the beginning and == at the end.

2. Enter the Invitation Code:

- o Open the FortiClient app. Click on **User Input**.

- o Fill in the required information.

o   Select the option **Connect Using** then select **Invitation Code** and press **OK**.

   o Click the **Enter Invite Code**. Paste the invitation code and click **OK**.

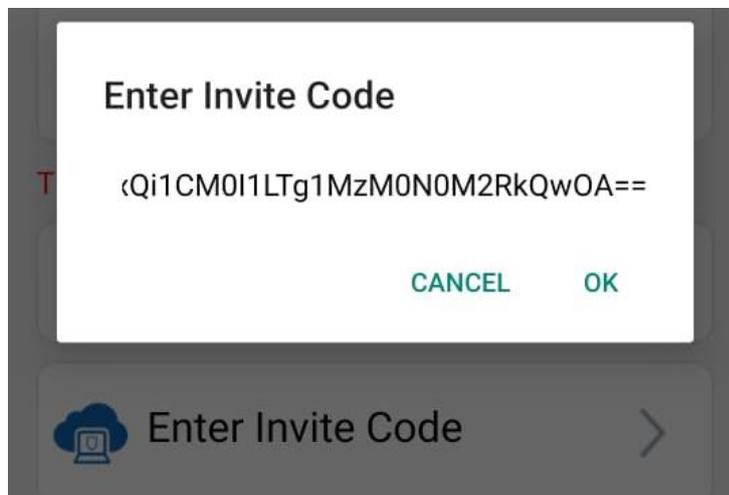

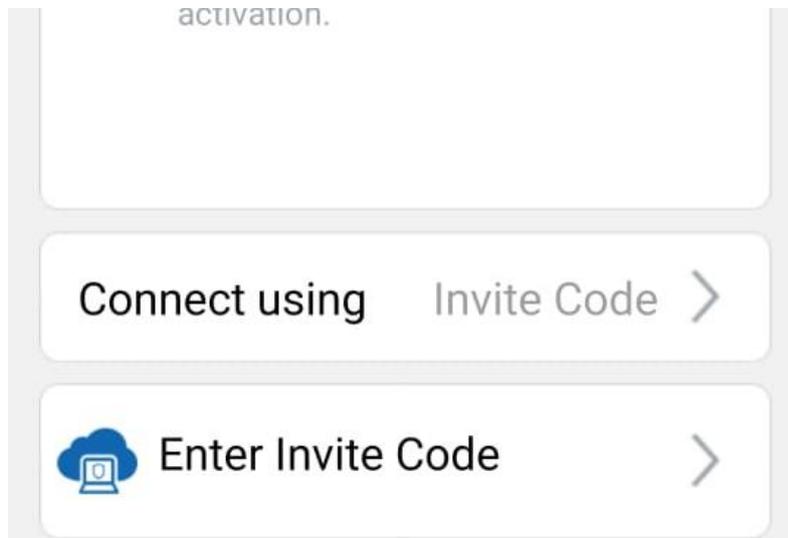

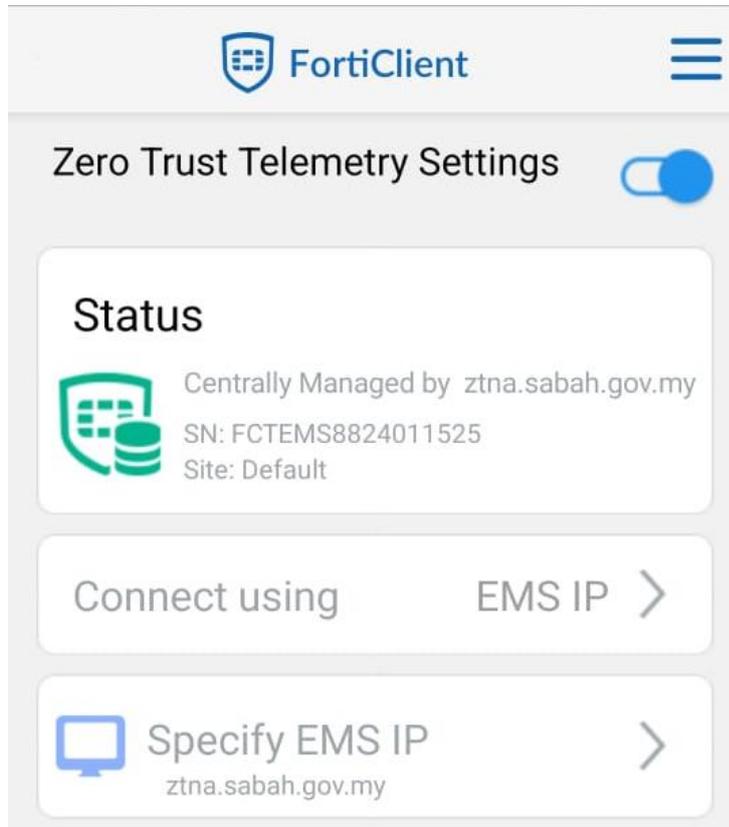

3. Log In:

   o Enter your **@sabah.gov.my email** and **password**.
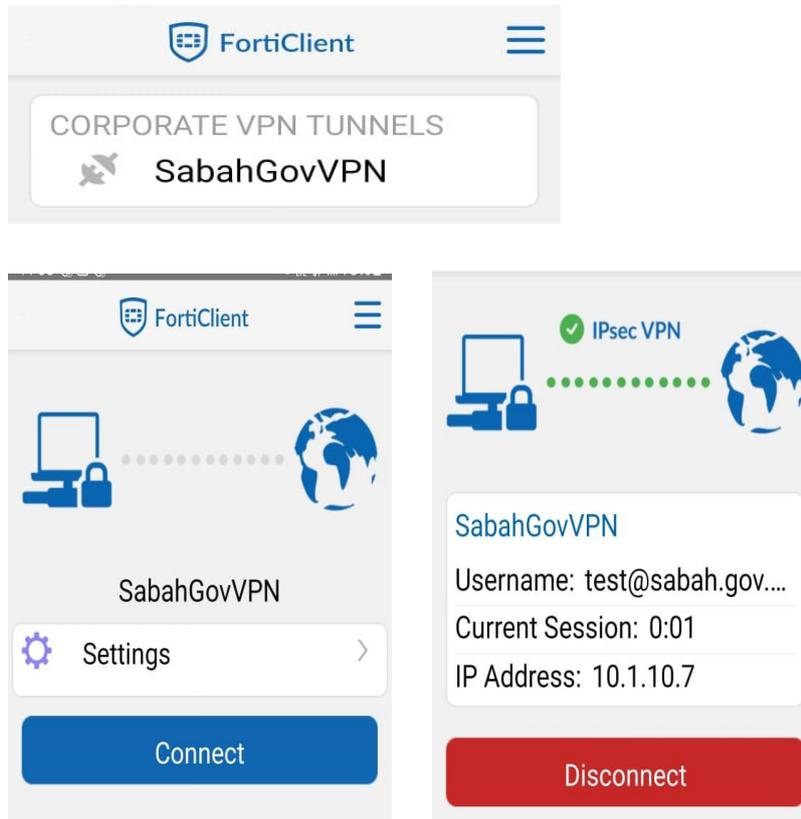

4. **Connect to the VPN:**
    o Once the connection is successful, click the **Ξ Menu** at the top.

    o Go to the **VPN** tab.

o Click on **SabahGovVPN** and press the **Connect** button.

Note: *The VPN is usually connected automatically. If not, please connect manually by clicking the* ***Connect*** *button.*

Additional Guidelines

- **Disconnecting the Connection:**
  - o Always disconnect the connection before disconnecting Zero Trust Telemetry.

- **Vulnerability Scanning:**
  - o After connecting to Zero Trust Telemetry, FortiClient will automatically scan for any vulnerabilities on your device.
